PROFESSIONAL SUMMARY

Highly skilled Senior Backend Developer with over 10 years of experience in PHP, Laravel, and cloud-based web applications. Proven expertise in designing scalable architectures, optimizing performance, and leading development teams. Adept at building secure, high-performance backend systems, ensuring data integrity, API efficiency, and seamless user experiences. Passionate about continuous learning, problem-solving, and adopting emerging technologies to drive business success.

PROFESSIONAL EXPERIENCE

2023 - 2025

Full-time

Lead PHP Developer

LOT

- Led a team of developers in designing and implementing robust web applications using PHP.
- Established coding standards and best practices, ensuring high-quality development and maintainable code.
- Conducted code reviews and mentoring to enhance the skills of junior developers.
- Designed a scalable system architecture that improved performance and reliability.

Achievements:

- Improved application performance by 40% through optimization and caching techniques.
- Reduced development time for new features by 30% by implementing efficient workflows and modular coding structures.

2021 - 2023

Full-time

Senior PHP Developer

Cashless Plus

- Engineered a high-performance digital payment system supporting multiple payment gateways.
- Integrated queue systems and background jobs to enhance transaction processing efficiency.
- Optimized database transactions and API response times for a seamless user experience.

Achievements:

- Increased transaction speed by 70%, reducing failed payments.
- Successfully integrated 3 major payment gateways, boosting transaction volume by 50%.

2019 - 2021

Full-time

Backend Developer

4Deve

- Developed and maintained enterprise-level backend systems.
- Designed and optimized database schemas for high-performance applications.

2017 - 2018
Full-time

Backend Developer

Wisyst

- Developed and maintained enterprise-level backend systems.
- Designed and optimized database schemas for high-performance applications.

2016 - 2017
Full-time

BACKEND DEVELOPER

Mogat Al Shamal

- Developed and maintained enterprise-level backend systems.
- Designed and optimized database schemas for high-performance applications.

EDUCATION

2012 - 2016
Benha University

🎓 **Bachelor's Degree in Computer and Information Sciences**

2012 - 2016
LBI Company

🎓 **Backend Development Training**

TECHNICAL SKILLS

- **Backend Development:** PHP, Laravel, CodeIgniter, WordPress
- **Frontend Development:** JavaScript, jQuery, Ajax, HTML, CSS, Bootstrap
- **Databases:** MySQL, Redis
- **Other Technologies:** RESTful APIs, OOP, Microservices, Cloud Services

LANGUAGES

Arabic

● **Native**

English

● **Excellent (Reading, Writing, Speaking)**

PORTFOLIO

Enterprise Resource Planning (ERP) System

- **Challenge:** Develop an all-in-one ERP system to manage financial and inventory processes.
- **Action:** Designed a scalable database and implemented modular APIs for efficient data handling.
- **Result:** Improved data processing speed by 60% and reduced manual errors by 90%.

HR Management System

- **Challenge:** Build a system for employee management, payroll, and performance tracking.
- **Action:** Developed features for attendance tracking, salary processing, and automated performance reviews.
- **Result:** Reduced payroll processing time by 50% while ensuring high data accuracy.

Multi-Vendor Restaurant Ordering System

- **Challenge:** Design a marketplace platform for restaurants to manage online orders.
- **Action:** Developed a flexible architecture that supports multiple restaurants, order tracking, and payment integration.
- **Result:** Reduced order processing time by 40% and increased customer satisfaction by 30%.

Zidesk (Technical Support System)

- **Challenge:** Create a ticketing system for customer support.
- **Action:** Implemented automated ticket classification and integrated solutions.
- **Result:** Reduced customer wait times by 60% and improved ticket resolution efficiency.

Aqar Misr

- **Challenge:** Develop a property listing website with advanced filtering and search capabilities.
- **Action:** Integrated search for property searches.
- **Result:** Reduced property search time by 70%, increasing user engagement.
